

Title: Backwash Line Pipe Replacement			
RFQ Identification Number: ToFM-PLT-RFQ-2025-001			
Administered by:	Brennan Orr, Director of Operations	Initiation Date:	2025.02.14
Contact:	operations@fortmacleod.com , (403) 553-4425	Close Date:	2025.02.28

1 Introduction

The Town of Fort Macleod is requesting quotations from individuals or contractors with experience in mechanical plumbing to replace the backwash line in the Fort Macleod Water Treatment Plant.

1. Interested parties must have proof of liability insurance, registered with WCB Alberta, and detailed information on criteria for payment
2. The Town of Fort Macleod reserves the right to reject any and all bids
3. The Town of Fort Macleod has the right to select the proposal that best satisfies its interests and not necessarily on the basis of price or any other single factor
4. The town will not be liable for any additional work or damages directly attributed to neglect or poor workmanship of the prime contractor or any of their subcontractors

2 Scope

The Town of Fort Macleod will require the successful party to:

- Coordinate a Site visit to review the site conditions
- Create an itemized and detailed parts and labour breakdown
- Supply an estimated Schedule of delivery and execution of work
- Procure all required parts, hardware, materials, tools and consumables
- Mobilization
- Coordinate with the plant for isolation of the system
- Existing Pipe Demolition and removal
- Execute the replacement
- Test the system for operational quality
- Remove from site all replaced materials
- Demobilization

operations@fortmacleod.com	Brennan Orr, Director of Operations	PO Box 1420, 410 20th St	

The Town of Fort Macleod reserves the right to reject any and all bids. The Town has the right to select the proposal that best satisfies its interests and not necessarily on the basis of price or any other single factor.

3 Schedule

The Town of Fort Macleod will require an estimated schedule of procurement, execution and testing. The successful party will coordinate;

- Site visit to finalize details for bid
- Procurement deliveries
- System isolation
- Execution of replacement
- Testing of the system

The town can isolate the system between flushes for approximately one week in which the mechanical exchange will need to take place.

4 Details

New Material: SCH 40S 360 SS Piping (200mm)

Length of Line: ~45 meters in total

Piping Path: A site visit is to be organized for evaluation of the path before any party supplies a bid

All the blue painted pipe will need to be replaced with associated connection hardware as needed.
