

## **Fort Macleod & District Sports Center – Arena & Curling Rink**

Due to the new announcements with respect to COVID 19 restrictions on September 15<sup>th</sup>, the Town is advising that we will not be participating in a general vaccine certification program at the Arena but rather continue with the current provincial restrictions/guidelines allowing for youth programming to continue, restrictions include: required masking, distancing, and single household spectators, and 1/3 capacity limits.

At this time, public skating and all adult (18+) programs at the arena are on hold. If any adult user groups have confidence that they could operate successfully under a restriction exemption program (vaccine certificate check), Town staff are available to discuss the possibility of moving in that direction. We appreciate the continued understanding of users and spectators as we navigate this change.
